The maintenance man's dream has come true

Lightweight and handy PipeCut 170 is now available also in battery version. You cannot find an easier, faster and safer way for cordless pipe cutting. The powerful 18V/4.0Ah battery enables cutting of steel, stainless steel as well as copper and plastic pipes in any place at any time, efficiently. The range of use is the same as with the AC powered model (15mm-170mm).
