Cut and bevel plastic pipes in one process

Unique method for plastic pipe installations. You just need to cut around a pipe and you get nice 15 degrees bevel at the same time. You can use the PipeCut P400 saw also only for cutting or for just bevelling plastic pipes.

PRICE INCLUDES

PipeCut P400, Shoulder bag, TCTP 150 Blade and Cut+Bevel Blade, 2 + 1 Pipe support, Instructions, Allen keys 5 mm, DVD
